>

Product: thigh waders standart

Manufacturer: -

Modelno: AJ-WR02

Specific features:

- basic model
- effective protection of legs against water
- increased stitching strength
- rubber supports
- can be used with leg warmers

Norms:

EN ISO 13688 EN 343 EN ISO 20347 - OB SRC

Description

Thigh waders with permanently welded, high quality boots. The model is made of waterproof, durable material providing effective protection of legs against water. Technique of welding on both sides increases strength of seams. Equipped with comfortable, rubber support fastenings.

Material

PLAVITEX HEAVY DUTY - a polyester-based material coated on one side with PVC. It is highly resistant to tearing and has waterproof stitching. Due to the unique chemical composition of the coating the material is extremely resistant to adverse weather conditions and bending at temperatures down to -50Â°C. The material meets the requirements of the EN 343 standard, which has been verified by tests conducted by a certified textile testing institute.

Price: 67,00 EUR
