Product: Thigh waders strong

Manufacturer: -

Modelno: AJ-WR02 STRONG

Specific features:

- anti-slip boots
- high quality material
- effective protection of legs against water
- increased strength of seams
- rubber support fastenings

Norms:
EN ISO 13688 EN 343 EN ISO 20347 - OB SRC

Description
Thigh waders with increased resistance to mechanical damage, with permanently welded, high quality anti-slip boots. Made of waterproof, tough material providing effective protection of the extremities against moisture. Welding technique on both sides increases the strength of the seams. Equipped with comfortable, rubber retaining laces.

Material
RUBBER - new concept of coated material. It is very strong resistant to tearing and has waterproof stitching. It that does not require maintenance. Top layer with low friction reduces risk of intersection and puncture.

Price: 88,95 EUR
