

Product: ANTISTATIC WATERPROOF TROUSERS

Manufacturer: -

Modelno: AJ-112/A

Material grammage: 350 g / m 2
Fabric thickness: 0.50 mm

EN 340 - Product complies with the standard "PROTECTIVE CLOTHING". GENERAL CLAIMS & quot;
EN 343 - Product complies with the standard "PROTECTIVE CLOTHING". RAIN, & quot;
EN 1149-5 - Product complies with the standard "PROTECTIVE CLOTHING". ELECTROSTATIC PROPERTIES & quot;

-50 ° C The product is resistant to kneading under zero temperature.

Made of polyester knit fabric coated with polyvinyl chloride. The product is used wherever work is carried out in severe and unfavorable weather conditions and at gas outgrowths or in mine shafts as well as during the pumping of fuel. The pants have a tight band at the waist, which serves the regulation. Thanks to the double-sided welding of the seams with high-frequency current, the product protects against strong wind and rain. The product complies with European standards: EN 340, EN 343 and EN 1149-5.

The delivery time of these products is 14 days.
