Manufacturer: -
Modelno: AJ-106/B

Material grammage: 350 g / m 2
Fabric thickness: 0.50 mm

EN 340 - Product complies with the standard "PROTECTIVE CLOTHING". GENERAL CLAIMS & quot;
EN 343 - Product complies with the standard "PROTECTIVE CLOTHING". RAIN, & quot;
EN 1149-5 - Product complies with the standard "PROTECTIVE CLOTHING". ELECTROSTATIC PROPERTIES & quot;

-50 ° C The product is resistant to kneading under zero temperature.

Made of polyester knit fabric coated with polyvinyl chloride. The coat is buttoned with metal snaps covered with pleats to protect the worker from electricity. The high-barrier fabric allows welding and sanding outdoors and in bad weather conditions. The coat prevents the wetness of the lower leg parties. The hood secures the head from rain and wind. The jacket protects the worker from rain and wind and allows working at gas outlets at risk and at high risk, for example: where there is contact with volatile gas or MethandÃ¼nsten. The product complies with European standards: EN 340, EN 343, EN 1149-5.

The delivery time of these products is 14 days.
