>

Product: WATERPROOF WARNING JACKET

Manufacturer: -

Modelno: AJ-1101

It is made from the knitted polyester fabric and coated with polyvinyl chloride. The product is used wherever work is carried out in difficult and bad weather conditions and in poor visibility. Thanks to the double-sided welding of the seams with high-frequency electricity, the product protects against the strong wind and rain. This jacket has a hood that can be pulled on the face; the pockets are let in so that the water doesn't get inside.
The delivery time for these products is 14 days.
If you order larger quantities, you will receive a cheaper PRICE OFFER, please contact us by phone or in writing by email.
