Product: WATERPROOF JACKET
Manufacturer: -
Modelno: AJ-300

Material grammage: 350 g / m 2

EN 343 and EN ISO 13688

Made of polyester fabric with PVC coating. The product is used when working in difficult and unfavorable weather conditions. The jacket is equipped with a water / gutter, which allows free water drainage and prevents the back part from getting soggy. In addition to the professionally cut hood, the product also has a closure cover (pleated) and thus offers even better protection against rain and wind. Due to the double-sided high-frequency welding of the product, it can be used under extremely unfavorable conditions.

The delivery time of these products is 14 days.
