Product: WATERPROOF WARNING JACKET

Manufacturer: -

Modelno: AJ-400R

Stoff: 350 g / m²
EN ISO 13688, EN343, EN ISO 20471
Made of knitted polyester with PVC coating. The product is used when working in difficult and unfavorable weather conditions and when visibility is poor. The jacket is equipped with a water / rain gutter that allows water to run off freely and prevents the back of the trousers from getting soaked. In addition to the professionally cut hood, the product also has a closure cover (pleated blind) and thus offers even better protection against rain and wind. Due to the high frequency welding of the product on both sides, it can be used under extremely unfavorable conditions.
The delivery time for these products is 14 days.
