

Product: Thigh waders FLUO-S5 boots

Manufacturer: -

Modelno: AJ-WRM02 FLUO

Specific features:

- increased strength of seams
- reinforcements on knees
- support fastenings
- insole preventing puncture of the sole
- fluo material for better visibility

Norms:

EN ISO 13688 EN 343 EN ISO 20345 - S5 SRC

Description

Thigh waders with high quality boots, permanently welded in. Effective protection against water. Technique of welding on both sides increases durability of seams. Functionality is increased by special reinforcements on knees, an insert preventing punctures on the underside of the wellingtons and a special toe cap protecting toes from injuries. Fluo material improves visibility in difficult conditions. The waders are equipped with comfortable support attachments for the waistband of the trousers.
Material

PLAVITEX HEAVY DUTY - a polyester-based material coated on one side with PVC. It is highly resistant to tearing and has waterproof stitching. Due to the unique chemical composition of the coating the material is extremely resistant to adverse weather conditions and bending at temperatures down to -50Â°C. The material meets the requirements of the EN 343 standard, which has been verified by tests conducted by a certified textile testing institute.

Price: 102,95 EUR
