Product: OVERALL WATER PROTECTION WITH REFLECTIVE STRIP

Manufacturer: -

Modelno: AJ-104/R

Material: 350 g/m²
EN ISO 13688, EN 343

The overall offers effective protection against wind and rain. It was manufactured using the technique of pressure welding on both sides, which essentially increases the resistance of the seams. Warning stripes increase the workers' visibility in the evening and at night
Intended for use in bad weather conditions. The product offers effective protection against wind and rain. Suitable wherever a good range of workers is required
Metallurgical industry, mechanical engineering, mineral and food processing, drilling platforms (construction of metal structures), construction

Price: 128,95 EUR
